2/11/89

Dear Mark,

Thanks for your letter

Uou sure are a fast worker to be nearly ready to start writing your thesis.

Good luck with it.

I've not tried to keep up with the doctors and nurses. Last I heard Humes was at a Detroit hospital. Probably gave its name when he testified to HSCA. No word on Boswell since I knew he was in private practise in Bethesda.

Quite some time agin I heard that Bowron had returned to England.

Maybe the other nurse, Stenchcliffe, would do and be easier to locate?

If I remember her name correctly.

Nope, never met your granparents. Glad you grandmother is still alive and friends with the rabbi who was a dear friend of my youth and still is.

Good luck!

Harold
